

Acting Director,
Office of External Affairs

4 November 1982

NOTE FOR: Director of Central Intelligence

1. The DDCI noted this morning that Bob Toth of The Los Angeles Times had indicated new interest in interviewing you for an article he plans on you and the Agency. Toth has had a request in to see you for some time. [redacted]

[redacted] met with him a few weeks ago and it was agreed that your agreement to talk to the Los Angeles Times Washington Bureau at breakfast on 17 November obviated the need for a one-on-one conversation with Toth.

2. Toth has not been back in touch with us but I assume he is now renewing his request for a one-on-one for a specific article. When Toth does come in with a request, we will, of course, check with you, but in principle I believe we should stand down for a while.
